

It has always been the goal of the World Series of Board Gaming to celebrate you, the players.

Since our inception, the dream has always been to turn on the television and see you playing Ticket to Ride for a million bucks while rocking a hat that shows off your endorsement deal with Capstone.

With this objective in mind, the WSBG is excited to present our competitor rankings. The bullet points below will help to shed light on how this list was created.

- This ranking reflects only results from the World Series of Board Gaming's 2024 Ring Tournament.
- These rankings reflect a player's overall success in our 2024 Ring Tournament main event. Number of wins, specific number of total Ring Event entrants, opponents' win percentage and several other relevant factors were all incorporated into these results.
- A total of 280 competitors achieved victory at least once across all 16 Ring Events in 2024. Each of those players can be found within these rankings. All WSBG attendees accrue merit whether victorious or not, and may eventually be included in our comprehensive ranking of tournament board gamers from around the world.
- Some players compete under a pseudonym to protect themselves or their identity. The names within these rankings are the names given to us by these competitors that are shown on their WSBG badge.
- Any discrepancies or incorrect information may be addressed at support@wsbgvegas.com.
